

## THE POWER OF COMMUNICATION

---

---

### **CLASSROOM COMMUNICATIONS**

The Classroom Connection allows teachers to communicate with parents on a daily basis. The Classroom Connection increases the parents' involvement by allowing parents to hear about their student's homework or classroom activities and listen to special notes from the teacher.

### **MORE THAN JUST A "HOMEWORK HOTLINE"**

The Education Connection does so much more than a "homework hotline." It connects the school with its community. Community members use TEC to hear about public meetings and events. Extracurricular activities use TEC to help plan and announce events. Teachers and Administrators use TEC to conduct community opinion polls.

### **INTELLIGENT OUTGOING CALLING**

Teachers tell us that the most powerful feature of TEC is the one that saves them the most time; outgoing calling. TEC's innovative design allows teachers to control their own outgoing calling using any telephone, whenever the need arises. When requested, TEC generates detailed outgoing calling reports including information on numbers that are using answering machines, and disconnected numbers.

### **PRIVATE VOICE MESSAGING**

TEC's One-on-One feature allows a teacher, who is not able to talk directly to a parent because of scheduling conflicts, the ability to communicate privately with a parent. One-on-One also allows private voice messaging between teachers and administrators, teachers and teachers.

# **TECMAIL™**

*Keeping you connected.*

With the introduction of **TECMAIL**, the interaction with the powerful telephone communication tool of The Education Connection is as easy as reading and sending email.

Teachers tell us the most exciting feature of **TECMAIL** is the automatic notification that One-on-One voice mail has been received. **TECMAIL** is like putting a message waiting light in every classroom.

## **USES AND IDEAS**

- REMINDERS:** Project Deadlines, Emergency Medical Forms, Field Trip Permission Slips, Parent/Teacher Conferences, Over Due Library Books, Meeting Reminders, Calling Chain Replacement, Community Poll Taking
- NOTICES:** Absent and Tardy Students, Change in Practice Schedules, Cancellation of Sporting Events, Cancellation of School, Snow Day Homework Assignments, Voter Registration
- INFORMATION:** Levy Information, Class Room Assignments, Extra Credit Assignments, Practice Schedules, Results of Games and Meetings, Club Meetings, PTA/PTO Information, Fund Raising Information, District Job Line, School Board Meeting Agenda

## **FUTURE EXPANSION**

# **TeleSub™**

TeleSub is an automated temporary staffing system designed exclusively for local school systems. When substitute personnel are required, TeleSub will automatically begin contacting qualified substitutes and confirm their acceptance of the assignment.

## **A WORD ABOUT INSTA-INFO INC.**

Insta-Info Inc. is a computer hardware and software company. Since 1959 our staff has been dedicated to providing our client base with efficiency enhancing communication equipment.

We are not "Sales Reps" selling just a package, nor are you buying a shrink wrapped package off the shelf. We are a local company proud of the client support we provide.

Insta-Info IVR systems answer over 17,000+ telephone calls per day. An Ohio based company, Insta-Info has systems installed in over 14 states throughout the eastern United States.

## **WHAT OUR CUSTOMERS HAVE TO SAY.**

*"Our parent community has been nothing but supportive and indebted to our schools for giving them this service."* R.L. Suter, Principal Beavertown Elementary

*"We have found that the system is very simple to use thanks to your easy-to-follow in-service with our staff."* Tom Tudor, Principal Greenmont Elementary

*"After meeting once or more with representatives from eight different companies, it became clear that The Education Connection offered advantages clearly ahead of the others."*

Mark Koerner, Principal C.O. Harrison
